

MARKETPLACE OPERATIONS PLATFORM

# Everything traditional providers leave manual — we automate.

A point-by-point look at where today's plug-in tools stop, and what a purpose-built operations platform does instead — tuned to how La-Fetch actually runs.

- Order Flow
- Penalties
- Settlements
- Live Analytics
- Auto Tracking
- Returns

| CAPABILITY        | TODAY (TRADITIONAL PROVIDERS)      | ANTORTIQ                                                                                                           |
|-------------------|------------------------------------|--------------------------------------------------------------------------------------------------------------------|
| Order Routing     | ✗ Basic split, no custom rules     | ✓ Configurable per-vendor stage flow, auto-routing, multi-vendor split end-to-end                                  |
| Email Comms       | ✗ Generic, unbranded templates     | ✓ Branded emails for confirmation, dispatch, delay, delivery, settlement, penalty, OOS, returns — every touchpoint |
| Late Dispatch     | ✗ No enforcement mechanism         | ✓ Auto dispatch-window tracking, warnings, penalty triggers, full audit trail                                      |
| Settlements       | ✗ Manual calculation, spreadsheets | ✓ One-click runs, auto commission split, auto move-to-payable, vendor-wise view                                    |
| Analytics         | ✗ Static, delayed reporting        | ✓ Real-time dispatch/delivery/RTO rate, revenue, vendor leaderboard                                                |
| Order Tracking    | ✗ Manual AWB entry & checks        | ✓ Auto courier sync, live status to customer & vendor                                                              |
| Returns/Exchanges | ✗ Email/spreadsheet based          | ✓ Fully automated request→approval→pickup→resolution, hands-off                                                    |
| Customization     | ✗ Fixed plug-in behavior           | ✓ Built around your rules, stages, brand                                                                           |

## WHAT YOU GET

## Eight systems, one platform

**01 Order Flow Engine**

Auto vendor-split orders moved through your defined stage pipeline (New → Confirmed → Ready → Dispatched → Delivered); COD, prepaid & partial-payment logic built in.

**02 Operations Console**

One screen for every order & vendor — vendor-wise fulfilment view, bulk actions, manual overrides, role-based access.

**03 Custom Email Automation**

Branded emails for every event: confirmed, dispatched, delayed, delivered, settled, penalty, out-of-stock, returns.

**04 Dispatch Penalty Engine**

Configurable dispatch-window per vendor, auto warning → penalty escalation, full audit log for disputes.

**05 Easy Settlements**

Auto commission & payable calculation, one-click move-to-payable, full settlement history — no manual push.

**06 Real-Time Analytics**

Live dispatch/delivery/RTO rate, vendor performance leaderboard, revenue & payment-mode breakdown.

**07 Auto Order Tracking**

Courier API integration, live tracking page for customers, out-for-delivery & delay alerts — zero manual AWB entry.

**08 Returns & Exchanges**

Fully automated request → approval → pickup → resolution — your team doesn't need to know it happened until it's done.

## TUNED TO YOU

## Not a fixed product — your rules, built in

**STAGES****Your pipeline**

Stage flow & dispatch windows matched to how vendors run today.

**BRANDING****Your brand**

Every email & page white-labelled to La-Fetch.

**COMMISSION****Your split**

Per-vendor/category commission & shipping rules built in.

**COURIERS****Your partners**

Wired to whichever courier network(s) you already use.

**ACCESS****Your team**

Admin, ops & vendor roles matched to your structure.

## BEFORE WE GO FURTHER

## This is just the starting point

Everything above is roughly 30% of what the platform can actually do. The deeper layer — advanced automation, vendor scoring, workflows built specifically for La-Fetch — is best shown live.

## NEXT STEP

### See it running, not just described

A focused 20–30 minute live demo — real order flows, the penalty engine, settlements, and everything we didn't put on paper.

And don't worry about the cost — this isn't another ₹15–20k/month panel subscription. Antortiq is a **one-time cost**, a small fraction of what you'd pay in a single year for old-generation panels.

**Reply to this proposal or reach out directly to schedule a time that works for your team.**
