TUNED TO YOU

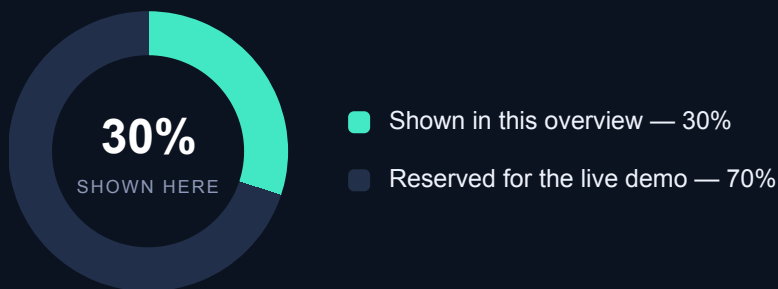

Not a fixed product — your rules, built in

- **Stages** — Pipeline & dispatch windows matched to how vendors run today.
- **Branding** — Every email & page white-labelled to La-Fetch.
- **Commission** — Per-vendor/category commission & shipping rules built in.
- **Couriers** — Wired to whichever courier network(s) you already use.
- **Access** — Admin, ops & vendor roles matched to your team structure.

BEFORE WE GO FURTHER

This is just the starting point

Everything shown is roughly 30% of what the platform can do. The deeper layer — advanced automation, vendor scoring, workflows built specifically for La-Fetch — is best shown live, not written down.

NEXT STEP

See it running, not just described

A focused 20–30 minute live demo — real order flows, the penalty engine, settlements, and everything we didn't put on paper.

And don't worry about the cost — this isn't another ₹15–20k/month panel subscription. Antortiq is a **one-time cost**, a small fraction of what you'd pay in a single year for old-generation panels.
