

MARKETPLACE OPERATIONS PLATFORM

Everything traditional providers leave manual — we automate.

A point-by-point look at where today's plug-in tools stop, and what a purpose-built operations platform does instead — tuned to how La-Fetch actually runs.

WHAT YOU GET

Eight systems, one platform

01

Order Flow Engine

Auto vendor-split orders moved through your defined stage pipeline (New → Confirmed → Ready → Dispatched → Delivered); COD, prepaid & partial-payment logic built in.

02

Operations Console

One screen for every order & vendor — vendor-wise fulfilment view, bulk actions, manual overrides, role-based access.

03

Custom Email Automation

Branded emails for every event: confirmed, dispatched, delayed, delivered, settled, penalty, out-of-stock, returns.

04

Dispatch Penalty Engine

Configurable dispatch-window per vendor, auto warning → penalty escalation, full audit log for disputes.

05

Easy Settlements

Auto commission & payable calculation, one-click move-to-payable, full settlement history — no manual push.

06

Real-Time Analytics

Live dispatch/delivery/RTO rate, vendor performance leaderboard, revenue & payment-mode breakdown.

07

Auto Order Tracking

Courier API integration, live tracking page for customers, out-for-delivery & delay alerts — zero manual AWB entry.

08

Returns & Exchanges

Fully automated request → approval → pickup → resolution — your team doesn't need to know it happened until it's done.

TUNED TO YOU

Not a fixed product — your rules, built in

STAGES**Your pipeline**

Stage flow & dispatch windows matched to how vendors run today.

BRANDING**Your brand**

Every email & page white-labelled to La-Fetch.

COMMISSION**Your split**

Per-vendor/category commission & shipping rules built in.

COURIERS**Your partners**

Wired to whichever courier network(s) you already use.

ACCESS**Your team**

Admin, ops & vendor roles matched to your structure.

BEFORE WE GO FURTHER

This is just the starting point

Everything above is roughly 30% of what the platform can actually do. The deeper layer — advanced automation, vendor scoring, workflows built specifically for La-Fetch — is best shown live.

NEXT STEP

See it running, not just described

A focused 20–30 minute live demo — real order flows, the penalty engine, settlements, and everything we didn't put on paper.

And don't worry about the cost — this isn't another ₹15–20k/month panel subscription. Antortiq is a **one-time cost**, a small fraction of what you'd pay in a single year for old-generation panels.
